

About U.S. PLY, INC.

U.S. PLY, INC., is a leading, full-line manufacturer of high quality roofing products for the commercial roofing market... Headquartered in Fort Worth, Texas, U.S. PLY, INC., manufactures, markets, and sells its products through a national network of distributors, and authorized roofing contractors. U.S. PLY, INC., entered the commercial roofing industry in 1985, utilizing the company's 20+ years as a pioneering leader in the development of modified bitumen technology. The company offers standard and premium modified bitumen (smooth and granular / APP and SBS) products, standard and premium BUR products, various commercial grade underlayments, polyisocyanurate insulation, fasteners, and a complete line of related installation accessories. In addition, all of our premium products are produced from 100% ALL AMERICAN MADE raw materials. To complement our roll goods, U.S. PLY, INC. is proud to offer our premium USP™ Energy Coating line of white reflective roof coatings (both acrylic and oil based). Our relentless research and product development programs keep U.S. PLY, INC., at the "cutting-edge" forefront of new commercial roofing products and technologies. We offer high quality components and roofing systems that are designed to be "Durable" and the right choice to help your roof stand up to the most extreme environmental elements for years to come. Behind every U.S. PLY, INC. roofing system installation...

Stands a corporate commitment to excellence. Our roofing products are produced using 100% AMERICAN MADE raw materials. This means we use only the highest quality and standard of raw materials and manufacturing processes to ensure long term performance. Our systems can meet a variety of code approvals... Factory Mutual (FM), Underwriters Laboratories (UL), Miami-Dade County, FL, Florida Building Code (FBC), and International Code Council (ICC) to name a few... U.S. PLY, Inc.'s, ENERGY COATINGS also meet US EPA / DOE, Energy Star, and Cool Roof Rating Council (CRRC) requirements for energy efficiency rating. Additionally, U.S. PLY, INC., is one of the only modified bitumen manufacturers to use at least 40% post consumer recycled materials in our polyester reinforced sheets, fully demonstrating U.S. PLY's ability and desire to lead the industry towards a cleaner, brighter, and much "greener" future!

Behind every U.S. PLY, INC. roofing system warranty...

You'll find a company with over 20 years of manufacturing success, and millions of squares of roofing sold to prove it! U.S. PLY, INC. offers only high quality membranes and components and the systems are designed and tested for weathering, durability, and compatibility. They can be specified, installed, and maintained with confidence. Building owners can choose between membrane material warranties or material and labor guarantees or a total roofing system warranty including: adhesive, bitumen, fasteners, thermal insulation, membrane and even metal accessories. To help with selection, each customer can rely upon the industry's finest technical and sales support staff.

The Protection remains long after the roof is forgotten...

For those of you that may not be familiar with U.S. PLY, INC., we are a family made up of business professionals striving to be the best that we can. We have the knowledge and expertise that our industry demands, which we will combine with the necessary commitment and leadership as we move forward with offering quality roofing products, innovative solutions and overwhelming service to You, the Building Owner, Roofing Contractor, Distributor, and the Specifier! In short, we are committed to providing you with quality roofing products at a fair price, backed by the best service in the industry!
